Pulver.com will Host Consumer VoIP Summit on Eve of CES 2005

Event will examine the newest trends, strategies, and profit opportunities in consumer VoIP

Melville, NY, December 13, 2004 – Pulver.com, the company responsible for creating the industry standard Voice on the Net (VON) events, announced today that it will be hosting a Consumer VoIP Summit, which will be co-located at the 2005 International Consumer Electronics Show (CES). The summit will take place at the Las Vegas Convention Center from 9am until 4:30pm on January 5th, the day before the 2005 International CES opens.

The Consumer VoIP Summit will feature the most influential and visionary industry thought leaders who will share their unique perspectives on trends to watch and developments to note in IP Communications. Senior representatives of the companies having the most dramatic impact on how people communicate today will discuss new ideas, new opportunities, and new partnerships in this evolving market. There will be panels on topics such as the revolution in broadband phone services and the future of real-time video communications. In addition, a number of companies will be exhibiting the latest consumer VoIP technologies and products.

“We’re in the midst of dramatic changes in the way we communicate, and this event will provide attendees with valuable insight on the newest trends, strategies, and profit opportunities in IP Communications,” said Jeff Pulver, chairman of Pulver.com Enterprises. “It’s the place to find out what’s happening with consumer VoIP technology, markets, and regulation and to see where the moneys are being spent for new voice alternatives and for new equipment purchases often associated with new offerings.”

more

Topics being addressed at the summit will include:

- The Present Future of VoIP for the Consumer Market
- Regulation and the Consumer
- Microsoft's Perspective on the Future of Personal Communications Devices
- The Voice of the Broadband Revolution
- Video Instant Messaging and Video Email
- Seamless Mobility
- 41 Years After the AT&T Picture Phone
